Subject: RE: Updated CFAC CIP Draft

Hi Robert,

Thank you. We have received the revised draft. We will take a careful look at it and let you know if there are any questions.

For the Community Concerns Graphic and the Tools for Community Involvement Graphic, the ones that Blair attached last week were examples that will be updated for CFAC.

Thanks,

Emily

Subject: Updated CFAC CIP Draft

Hi Emily,

Attached is a revised draft. I skipped the redline but made quite a few changes. I do have a few additional comments for your consideration/development in the document as well. Please review again thoroughly - I likely made errors cutting and pasting, formatting, and making other changes. As always, please make additional suggestions/changes you think may help readability/usability.

In the Community Concerns Graphic, I didn't see icons for all of the concerns we outline in the CIP. Will these be developed?

I am happy to discuss these changes with you. Mike and I appreciate all of your work on this. Looking forward to seeing the updated and formatted version. Thank you.

Subject: RE: For your review: Revised Draft CFAC CIP text and draft Superfund Process Diagram

Hi Emily,

I am currently revising the text in the CIP. Some of my suggestions didn't get incorporated in the revised draft and I am adding in that and some other thoughts. I will have a revised version for you tomorrow. Sorry for the delay.

Hi Robert and Mike,

We wanted to follow up and see if you have had a chance to review the revised text so we can get started putting things into layout.

Thanks,

Emily

Subject: For your review: Revised Draft CFAC CIP text and draft Superfund Process Diagram

Hi Robert and Mike,

Please find attached, for your review, the revised CFAC CIP draft text. You'll notice that the two graphics examples (Community Concerns and Tools for Community Involvement) are also attached here and mentioned in the text. These graphics will be updated to fit the needs of this CIP once the rest of the text is finalized.

Also attached is a draft of the graphical Superfund Process Diagram that we discussed on our last call. We included it as an attachment here, rather than inserting it into the draft text, due to it being in landscape format. Robert, the icons in this table were created by Skeo and as such would be available for your future use as well.

We look forward to hearing your feedback.

Best,

Blair
